this is good

. damn

. Downloaded....tick....Not installed :(

Why not?

I don't know how to do it.

So does anyone?

. APPARENTLY ALL CONTINENTS HAVE THE SAME SCENERY OR ARE THE IMAGES JUST THE SAME?

ITS FREE SO WHO CARES? JUST SHOWS THE MANAGER ISNT EVEN BOTHERED TO TAKE SOME SCREEN

CAPS.. Same problem as Mosquito2306: Steam says that this Scenery is in the Library, X-Plane says it is NOT!. Dont worry guys

once you right click on x-plane in ur library and go to properties > DLC and check off all scenery. X-plane will update itself and

it will take a while depending on ur connection. this \u2665\u2665\u2665\u2665ing software sucks.. it says it is in my library

but in the game it says that it hasn't and that i need to buy the discs or return to the demo region of seattle

it looks so awesome and cool and like wow!!!. All the X-Plane 10 (continent here) scenery comes with the game but you have to install it separately.. Right click X-plane 10 in your library and select "View downloadable content". You'll find Europe (and others) right there to download. Once checked, X-plane 10 will automatically update itself. I agree ... the above message of "Europe Scenery is already in your Steam library" is a little bit confusing, since it is not explicitly mentioned there.. not working says that it in librerary but it is not
